MINING INNOVATION
WITHOUT BORDERS
BRAZIL 2027
Collaborate. Innovate. Transform Mining.

CALL FOR EXPRESSIONS OF INTEREST (EOI)

READY TO TAKE YOUR MINING INNOVATION GLOBAL?

MARCH 31 – APRIL 1, 2027	BELO HORIZONTE, BRAZIL	TRL 7+
SUMMIT DATES	LOCATION	TARGET READINESS

MIWB Brazil 2027 is built for commercialization — connecting market-ready mining technologies with the people who can help validate, integrate, deploy and scale them internationally. Mining Innovation ecosystem from Brazil, Chile, Peru, Australia and Canada are all there with a delegation of innovators and their mining stakeholders.

WHY APPLY?

- **Pitch your innovation** to mining operators, EPCMs, engineering and integration companies, investors and innovation partners from 5 countries present.
- **Access curated B2B meetings** right after your pitch with targeted networking designed around business opportunities.
- **Explore demonstration**, deployment, partnership and market-entry opportunities.
- **Build visibility** and commercialization relationships across Canada, Brazil, Chile, Peru and Australia.

UP TO 200 EOIs → APPROX. 40–50 HIGH-POTENTIAL TECHNOLOGIES SELECTED

TECHNOLOGY FOCUS

01

MINERAL EXPLORATION

Mineral analysis, exploration technologies, geological modelling, sensing and related solutions.

02

MINING PRODUCTION

Automation, AI, productivity, mine optimization, processing and production technologies.

03

MINE CLOSURE & SUSTAINABILITY

Decommissioning, environmental performance, circularity, tailings, sustainability and ESG solutions.

In partnership with FIEMG and FIEMGLab.

CEMI

YOUR PATH TO MIWB BRAZIL 2027

A focused international selection process for commercially ready mining innovation.

WHO SHOULD APPLY?

Mining technology companies, SMEs, startups and innovators with **TRL 7+ solutions** approaching demonstration, deployment or commercialization and ready to pursue international business opportunities.

HOW SELECTION WORKS

- **Five-country call:** EOIs are launched across Canada, Brazil, Chile, Peru and Australia. We expect up to 200 expressions of Interest.
- **Industry-led evaluation:** each delegation establishes a technical committee of relevant industry and subject-matter experts.
- **Commercialization criteria:** TRL, industry relevance, commercialization potential, international applicability, scalability and readiness for B2B and deployment.
- **Final cohort:** approximately 40–50 high-potential technologies will be invited to participate.

WHAT SELECTED INNOVATORS RECEIVE

- Access to the two-day MIWB commercialization program.
- Technology presentations or pitches and curated B2B opportunities.
- Thematic panels and targeted networking with international stakeholders.
- Interpretation services, coffee breaks, meals and the networking reception.

READY TO ENTER NEW MINING MARKETS?

Submit your Expression of Interest by NOVEMBER 23rd, 2026 (deadline)

Selected participants will be announced: From DECEMBER 15th, 2026, to January 15th, 2027
